

Leader Training Scheme

Preface

Since September 2012, the Training Team has linked up the improved Leader Training Scheme with Leader Training Recognition Badges (bars in seven colors) and Leader Training Scheme Record Book.

The objective is to promote leaders on progressive, continuous and diversified personal development with active participation in various training courses so that they can enable girls to develop their potentials and intelligences for whole-person development.

The Leader Training Scheme is classified into 5 levels with flexibility in time. The course design is progressive in principle with stresses on both knowledge and skills. Its objective is to develop outstanding leaders who can practice, learn and contribute through the method of 'learning by doing'.

Level 1 to 4 support leaders on their unit management and method of delivery, consolidating and extending their skills learning so that they can provide girls with an enjoyable guiding life with fun. Level 5 provides leaders with diversified opportunities for development and builds them to be quality volunteers for the Guiding Movement in Hong Kong.

In September 2014, the Management Committee of the Hong Kong Girl Guides Association has passed that Leaders of the Happy Bee and Golden Guide can also join the Leader Training Scheme. Its objective is to help them improve their understanding of the Guiding Movement and leadership as well as acquire various guiding skills through participation in different training courses.
